Speech of W. H. Harvey on the Money Question.

A STRONG PLEA FOR SILVER

How the People Have Been Im- poverished.

THE RESULT OF FALLING PRICES

Baefal Effect of Legislating For the Few Rather Than the Many.

Something of Interest to Businessmen and Farmers—The Logic of Bimetallism. Speech of W. H. Harvey, Author of "Coin's Financial School," at Greenville, S. C., May 16, 1896, Before the Order of Patriots of America.

MR. CHAIRMAN, LADIES AND GENTLE- MEN, AND MEMBERS OF THE ORDER OF THE PATRIOTS OF AMERICA—I have come to your county to speak here today, to ex- plain to you what I have been raised to believe is standard of an order intended to regulate the civil conduct of the nation and to free our government from the control of the money power.

When great questions have pressed themselves upon the United States, the people of Ohio have been true to the traditions of freedom and liberty. When issues affecting the liberties of the people and the existence of the republic have demanded a verdict, the people of Ohio have been ready to give it. In the crucial period in the history of the republic, when the fate of our country was悬 in the balance, the people of popular governments elsewhere has manipulated the lawmaking power and the power of taxation, to people and to the few of the few. Then the re-public was a failure, and then came mon-archy.

Spirits of Mammonism—It is a spirit of mammonism that causes us to worship wealth and the opinions of those who have wealth. The men of wealth are the best business men we have, but the least capable of understanding the principles upon which a republic is founded.

The men to whom I refer wish laws that encourage unbridled selfishness. Such men are the enemies of republics. Their opinions are not opinions that the masses of the people should follow.

We are living under laws that are making us impure upon our civilization. If it fails, it will be due to our failure to our republic and to human happiness as have the feral laws of Europe and as they have overthrown the republi-ans of the Americas.

We have learned, however, in this republic what the people of other republics discovered too late to their own sorrow— that the laws may capture not only individuals, but organizations. More than one political organization in this state is today struggling in the jaws of death.

The unselfish people are looking on with mingled feelings of anxiety and humili-ation. The time of trial and tribulation—this time of trial may capture not only individuals, but organizations. More than one political organization in this state is today struggling in the jaws of death.

I am here to present to you, in the brief space of a speech, the side of the people in this issue, now on trial in the republic. I do not hope to reach those who are seeking to prove that the people are right, but those who are consciously or unconsciously seeking to promote their selfish interests. My appeal will be to the unselfish Americans—those who recognize that the man who serves himself best by promoting the common good.

The importance of coin—Money is the blood of commerce, the life giving fluid of civilization, the vital organism in our social existence. You can do without wheat, corn, beef or any other single commodity, but you cannot do without money. You can do without bread, for instance, for rice for bread; you can do without beef by using pork or mutton the meat, but you cannot be a part of civilization and do without money. We must have money to go back to barbarism. It is the most important factor we have in civilization and may well be termed the blood of civilization. We must have money to give the world a new birth to civilization.

One of the rules that should be applied to any country is that there should be a necessary amount of money. There is a necessity for so much bread. There is also a necessity for a normal supply of money. If there were laws that would have a tendency to restrain the hoarding when that operated to store a wagon elevator while people suffered for the want of it, you could not in favor of the people get it. If the law was strong enough to force the people, who would be in favor of raising more of it. If we have laws that encourage the hoarding of money, it is the same as robbing the people of the means by which the people and the nation are made to suffer for it and to pay blackmail in order to get it, you should demand the repeal of those

THE GRANGE SALE.

Nearly \$4000 Worth of Stock Sold—Not the usual crowd.

Owing to the rain in the early morning, the usual great crowd did not attend the sale at Church Hill Grange Friday. The crowd probably did not exceed 400 or 500, but the sale was one of the best held in recent years. About 220 head of cattle were sold and the sales aggregated \$4000. Mr. J. R. Caudle acted as auctioneer. The usual elegant dinner was spread all present and although the weather threatened to be inclement, there was no rain after the sale began about 11 o'clock. The official report of the sale appears below.

How to Treat a Wife.

(From Pacific Health Journal.) First, get a wife; second be patient. You may have great trials and perplexities in your business, but do not let her contribute to your trouble. A kindly word, a brow, a smile, which of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all elements of gloom.—To this end, let me add a few words of忠告 (of Chambord's Coach). Remedy in the house. It is the best and is sure to be needed, sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by R. C. Hardwick.

laws. And if there is not enough money to answer the normal requirement, you should see that more money is made. You should leave it to the mint class of men to decide what taxes should be. Money is made by law.

A cattle man in Kansas who owns 10,000 head of cattle in the mountains, has a right to tax his cattle, and would cut off animal life 10,000 cattle would be worth far more to him after that calamity happened than they are worth now. The cattle man has the same principle and he applies it to his business.

Cattle are raised by nature and the supply is regulated by the market.

It is the right of man to tax his money which is an artificial substance and is made by law. The money dealer knows this and he goes where the money is made and goes where the money is safe.

It would be a great temptation to the cattle man if he had the power to destroy half the cattle of the world.

The tendency has been too great for the money dealer to resist.

Bimetallism Defined.

We believe that bimetallism that rules on the metal money of one country is an artificial substance and is made by law. The money dealer knows this and he goes where the money is made and goes where the money is safe.

The Louisville Post threw up the sponge Friday and admitted that the people will win the fight over the "money grabbers" in this week's fight in Kentucky. The Post did hard, but that fact can no longer be concealed that the silver tide is sweeping all before it in the present contest. Even the disenchanted of the country vote will not save the gold bugs from the defeat that awaits them. The true Democrats in the cities will rally to the standard of bimetallism and help the people administer a crushing blow to those who are trying to deliver the party bound and gagged into the camp of the Shermanites. Kentucky will go old fashioned, double standard Democracy and there will be no further talk of monometalism as a doctrine of the Kentucky Democracy. The people may be fooled sometimes, but they have their eyes open now and they propose to settle the money question while they are at it. Silver MUST BE RESTORED.

The goldbugs at Washington are in the hottest kind of water and the bimetallists in Congress are forcing the fighting in a manner that is alarming the bond money men all over the country. Secretary Carlisle is being investigated in a most vigorous manner and the Senate will this week pass a bill prohibiting the further issue of bonds without authority from Congress. Of course this bill will be vetoed by the President, but he will understand what the people think of his conduct, and to further emphasize this bitter feeling against President Cleveland resolutions of formal impeachment have been offered in the House by Howard of Alabama.

The Louisville Post published this surprising information, from which it seems the silver forces will capture nearly one-third of the Louisville vote.

"The free silver people are losing no time and are actively at work in this city. They are very sly, and it looks as if they had already captured the twenty-eight wards of the eleventh and twelfth wards, where the sound money men have allowed some leeway to the silveriters favorably to the white metal men."

It is hoped the meeting this afternoon will develop a spirit that will save the whole Fifth district to sound money, but unless very hard work is done a large part of the city's vote will go to the silver faction."

And this:

"The free silver men of Louisville announce their intention of capturing the Fourth and Fifth wards."

It is said that the free silver forces are preparing to organize in all parts of the city.

If you are a true Democrat and patriotic citizen make up your mind to

devote next Saturday to your party and your country. No matter what you may be doing, drop your plow, your hammer or your business, and come to the mass convention and vote to keep Democracy in the best path of bimetallism, traveled by the great leaders of the party for a hundred years. There is one single standard party in this country and there is no room for another. Shermanism was wrong 23 years ago and it is wrong to-day. SILVER MUST BE RESTORED.

The silver men of South Dakota who were flummoxed out of the delegation last week by agents of the administration who secured proxies from silver delegates who did not attend, are preparing to send a contesting delegation to Chicago.

Josiah Patterson stumped Missouri for gold and the State went 915 to 12 for silver. He returned home and stomped Tennessee, and that State went the same way by 918 to 20. Stay with us, Josiah, stay with us, and if possible come to Hopkinsville.

The instructed vote now stand 194 for free coinage and 174 for gold. This counts for gold 10 silver votes in Michigan bound by the rule unit. Michigan June 3 and Virginia June 4 are the next States to act.

The Livingston Banner, published at Smithland, Congressmen Hendrick's home, by Rio Reed is whooping up things for Stone and silver. Mr. Hendrick seems to have thrown away all chance he ever had to succeed himself.

Mr. Montelle Gause has sold the Videlite Vidette to Mr. L. W. Gaines, of the Elton Progress. The Vidette is just completing its fourth year and is a very newsworthy and creditable paper for a small town.

Hou. Jas. F. Clay made a stirring silver speech in Henderson Saturday to the country people. Henderson county is strong for bimetallism.

Hou. Henry D. Allen is leading the fight for silver in Union county and that county at one time considered doubtful is now safe for bimetallism.

Congressman Patterson, who is making speeches in the Blue grass counties, refuses to divide time with Hon. Jno. B. Thompson, who is following him up and replying to him at night.

Mr. Ed. R. Settle, of this city, has gone to Princeton to become the editor and manager of the Caldwell County News.

A test vote on the anti-bond bill in the Senate was taken Friday and only five Democrats voted to sustain the President. Lindsay was one of them.

Fifty county conventions have been held in Illinois and only one has instructed for a gold standard.

Speaker Reed does not take much pleasure in reading that the Czar of Russia will be crowned next month.

An article of great contemporary interest in Scotland, in the Journal of Henry Norman's vivid picture of the present condition of affairs in the most crucial point in all European politics—the Balkan Peninsula, where a half-dozen little Principalities are the buffer between the great Powers. Some time ago Mr. Norman made a visit to the Balkans and this article is the first presentation of the impressions then gathered of Roumania, Servia, Bosnia, Herzegovina, Bulgaria, and Montenegro. The criticism is good about American policy, but the author's article is a clear presentation of the exact situation of the whole Eastern question as it appears at the present moment to a trained eye. Abundant illustrations of the picturesque countries visited are made from Mr. Norman's own photographs.

Suits alleging various charges of interest were filed against several banks of Owensboro by the Sour Mash Distilling Company, of which M. V. Monarch is the head.

The probability is that Miss Guy, the State Librarian-elect, will be allowed to take her place without a hearing. Gov. Bradley says he has not investigated the case and intimates that he is not disposed to interfere.

People often wonder why their nerves are so bad; why they get tired easily, why they sleep poorly, why they do not sleep naturally; why they have frequent headaches, indigestion and nervous

Dyspepsia

The explanation is simple. It is found in that impure blood which is circulating in the body, feeding the brain, instead of the blood which is pure, strong and vigorous. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the body with the purest elements of nature, sleep, perfect digestion, is the true remedy for all nervous troubles.

The Situation Reviewed.

(Louisville Critic.)

On next Saturday, mass conventions will be held in every county in Kentucky by the delegates to the Democratic State Convention. Two weeks ago the Critic believed that each of the factions would carry five districts, with the remaining district leaning toward the gold standard. To-day, there does not seem to be a doubt that the free silver will sweep the State and will carry every county.

Delegates from the various counties show that the free silver men are well organized, and that the gold men are rattled and beaten. If further proof of the diary that has struck the nation, that the gold men are not to be trusted, it can be found in the hysterical appeals of the Courier-Journal to its gold friends to stand firm, and the anarchistic assault of the Post upon the silver men. Both of these papers realize that settling day has come for the silverites in Kentucky, but a number of fine editorial writers for the gold men are equally as lucky to be beaten.

The Post has been thrown into such a frenzy over the certain loss of the State that, on Friday, it attacked Carlisle and Lindsay and McCreary, its political idols, for their conduct to the silverites. The Post is a newspaper, but it is not a newspaper.
